The new trendsetter
SoftClose[®] pure

Design meets comfort: Your creative module system for the bathroom & toilet

With Design Family you combine your favourite design with the hinge system of your choice. All design options are available – from soft to hard edged. The three designs focus here on the trend towards slim line shapes and wall-hanging toilets. Choose your preferred design and combine it with the SoftClose® classic automatic closing system, or with the all new SoftClose® pure. In addition shackle type hinges are also available. The Design Family covers the complete market segment of lower and medium priced product for standard shaped ceramics. Regardless of what you decide – with the Design Family you will find your completely individual WC seat solution.

10 years of SoftClose® expertise

As the pioneer of the SoftClose® system, Hamberger Sanitary has been setting new standards in bathrooms and toilets for over 10 years now. As a WC seat producer since 1912, the company today impresses customers with its innovations as the biggest manufacturer of duroplast WC seats. With quality you can rely on!

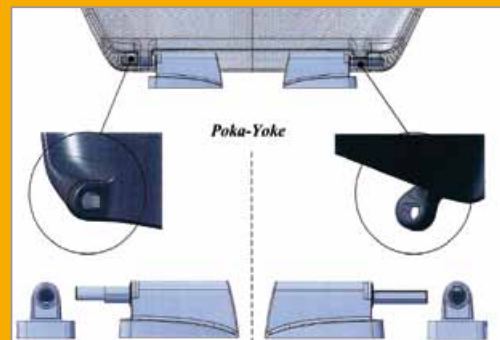

SoftClose® classic – the leading automatic closing system

- **1 simple touch** – and the lid closes automatically, softly and quietly
- **especially child-friendly** – impossible for fingers to get trapped
- **10-year functional warranty** – for so much enjoyment for so much longer
- **TakeOff®** – WC seat can be taken off for easy cleaning

SoftClose® pure – the new trendsetter

- **innovative** – the new SoftClose® alternative
- **Comfort for the price-conscious** – the comfort and quality you are used to with the best balance of price and performance
- **1, 2, 3: ready fitted** – quick and easily installed with the damper following the Poka-Yoke principle. Makes mixing up dampers impossible
