

## **Silent and soft:**

### **SoftClose automatic closing system**

Everybody knows the annoying sound of clattering toilet lids. We have the solution. For years Hamberger Sanitary has distributed the automatic closing system "SoftClose" on the market and has set a standard in the sector. When closing the toilet lid a light touch is enough and the lid closes gently and seemingly weightless.

The automatic closing system is integrated in the seat and makes sure that the shapely appearance of the designs persist. The installation is blindingly easy and quickly done: The seats are attached at the hinges without any special tools. The simple construction guarantees best cleaning.

And for keeping the joy in your bathroom Hamberger Sanitary issues a function guarantee for SoftClose lasting 10 years.

Silent and soft: The automatic closing system SoftClose closes the toilet lid silently on to the seat.

Hamberger Sanitary GmbH in Rosenheim near Munich, Germany, today is the largest manufacturer of WC seats having its production facilities in Germany. The Sanitary Ware division has been manufacturing WC seats made of wood and plastics since 1912, with the development of its own designs and ingenious hinge technology forming the basis of its success. The enterprise which was founded in 1866 is today managed by Peter Hamberger and Dr. Peter M. Hamberger, in the fourth and fifth generations. The export share of the company is over 50%; exports are world-wide into more than 50 countries.
