

## **New 'Match and Fit' Concept from Hamberger Sanitary**

### **New price list shows the matching seat at a glance**

For nearly every ceramic brand Hamberger Sanitary has developed a WC seat to match it. Distributors and installers now have an even easier way to find the right one: With the 'Match and Fit' concept, HARO has redesigned its price list to offer key information for decision-making at a glance.

To find the seat that "fits to a T," all the distributor or installer has to do is measure the length and width of the ceramic: The new price list concept immediately guides them to the matching WC seat model. An overview of all available hinges is also provided, showing the different fastening systems as well as the elongation and shortening options. The vast range of possibilities for choosing a HARO WC seat becomes not a maze, but a source of inspiration for creative bathroom design.

Hamberger Sanitary's new price list is available to distributors as of now and is effective from 1st April 2007.

Hamberger Sanitary GmbH in Rosenheim near Munich, Germany, today is the largest manufacturer of WC seats having its production facilities in Germany. The Sanitary Ware division has been manufacturing WC seats made of wood and plastics since 1912, with the development of its own designs and ingenious hinge technology forming the basis of its success. The enterprise which was founded in 1866 is today managed by Peter Hamberger and Dr. Peter M. Hamberger, in the fourth
